

# CUSTOM ONLINE ORIENTATION & TRAINING

Custom Employee Onboarding  
Custom Safety Training  
Custom Worksite Safety Orientations

We can work together to create custom safety onboarding, training packages, or worksite safety orientations that can help your company ensure that your employees are fully prepared and equipped to work safely.

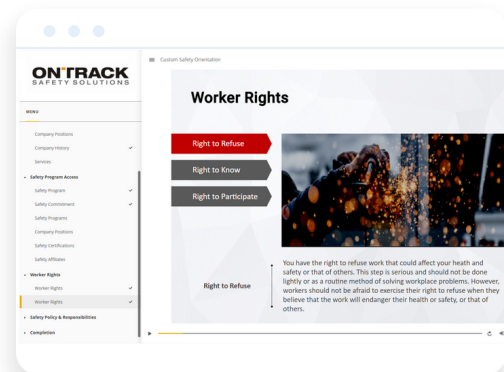

Creation of Custom Safety Topics for training, onboarding or site specific orientations

Keep records of completed orientations for every employee and contractor in our online platform

Create custom content specifically designed for your business and policies

# Streamline your onboarding process with custom online training

Let us help you implement your safety needs by providing workers with high-level safety information custom to your company's policies and practices. Our orientations are designed with your specific needs and industry in mind. They can include a range of features such as interactive elements, multimedia content, and assessments to ensure that your team has a thorough understanding of all safety protocols.

## Full Customization

### Topics Specific to your Company

You choose what you want to have covered and we can even incorporate your policies and procedures

### Custom Filming and Photography

We work exclusively with a high-end filming and photography company that can take pictures of your work locations, staff and work tasks

### Certificate Upload

If you are signed up with our free safety training portal, safety certificates can be easily uploaded.

### Interactive Features

We can incorporate interactive quizzes, reports, infographics, & more into any custom program.

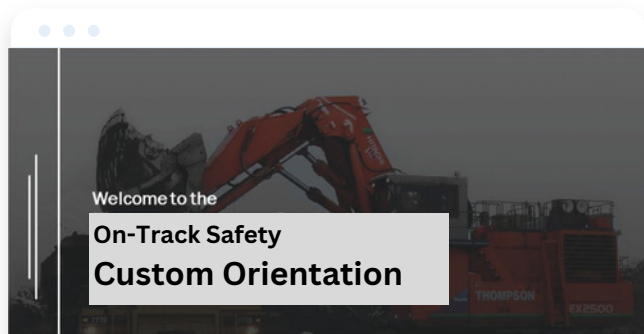

### President's Message

Using technology as simple as a cellphone, it's easy to take a video of the president addressing the team, then upload the message directly into the orientation.

### Mainstream Multimedia

Our orientations can be uploaded into existing LMS systems, your website or as a website link for easy access from anywhere

## Ready to Work on Day One!

With our custom online orientations, both your employees and contractors can have access to orientation material. Full and part-time workers can access the orientation from the office or at home and arrive at their job site ready to work!
