CONTRACTOR MANAGEMENT

Let On-Track Safety manage your accounts so you can focus on the things that matter

We help companies achieve compliance for ISNworld ® RAVS®, ComplyWorks, Avetta (formally PICS) and CanQual. Regardless of the compliance system required, On-Track is the solution for quick one-time use or yearly ongoing account maintenance. We get clients through this process as painlessly as possible and provide a high level of customer service that treats small and large employers with the respect they have all earned.

CONSULTANT COR & SECOR AUDITS

On-Track Safety Solutions can assist your company in each step of becoming COR/SECOR certified. We have experienced certified auditors that are comfortable auditing companies of all sizes ranging from 1 to 5,000 employees from all different industries. Contact our office for more information or to book your external or internal COR or SECOR audit. Our auditors can conduct Partners in Injury Reduction COR & SECOR audits for the following partnerships:

- Energy Safety Canada
- Alberta Construction Safety Association (ACSA)
- Alberta Association for Safety Partnerships (AASP)
- Alberta Municipal Health and Safety Association (AMHSA)
- Manufacturer's Health and Safety Association (MHSA)
- And more

Our auditors combine in-depth knowledge of regulatory programs and management system expertise to help you stay one step ahead of the competition.

GAP AUDITS

Gap safety audits provide companies with a formal program review that can be customized to your company's needs. These reviews can be completed as a way for large or small companies to complete consistent reviews or pre-audits to ensure the health and safety program runs effectively and efficiently.

Companies can use a GAP audit to determine if they are ready to undergo a full COR or SECOR audit or to ensure that branches across provinces are consistently implementing a company's safety program. On-Track Safety is able to customize gap audits to your company's needs no matter what industry you are working in or the size of the company.

CUSTOM SAFETY MANUALS

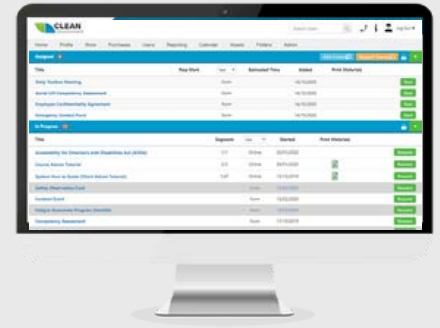

Pass the COR & SECOR Process

We can assist you in creating & implementing Customized Safety Practices, Policies and Procedures to meet the submission requirements of Vendors, Industry, COR & SECOR anywhere in Canada. All of our safety programs are customized to your companies needs and the work that you perform.

FREE Online Group Safety Training Account

With On-Track's free learning management system, you can access an enterprise-level learning management system (LMS) that includes a robust exam engine and an integrated eCommerce store.

The platform is designed for companies with safety training needs. System features strongly align with safety, making On-Track a perfect fit for any company's safety and compliance management program.

Competency Assessments

Training employees is important, but ensuring employees have the proper level of competency is critical. Well-designed competency assessments can help your company:

- ▶ Reduce overall company risk
- ▶ Improve efficiency
- ▶ Find the best person for the job
- ▶ Increase work quality

Custom Safety Orientations

Getting the best from your employees starts with a comprehensive orientation. When done effectively, a site orientation can provide new hires with insight into the existing company culture, information on specific company policies and procedures, as well as a better understanding of what is expected from them.

We have several different options for custom orientations where we can create anything that you need. to cover all the topics that you want to be reviewed. For any topic, any length, we customize the orientation to your needs and can include interactive web-based features and even the option for custom filming and photography.

Training Record Management System

Managing Employee Training Records Has Never Been Easier

The Training Record Management System not only tracks and manages training records and certificates for courses completed through our LMS, but it also stores, tracks, and reports on training completed in the classroom, in the field , or on another system!

Using a convenient Excel upload feature, within minutes you can create hundreds of user accounts and upload thousands of training records.

- ✓ Certificate Management
- ✓ Expiry Alerts
- ✓ Auto Archiving
- ✓ Training Hours Reports
- ✓ Mass Record Upload/ Update Tools
