

# CORPORATE CLIENT PROGRAM

Implement and Manage Company Training Without the Monthly Fees

Reduce the administrative work and cost of training your team. Access over 1,000 top training courses, excel reporting, dashboards, the training matrix, and more. All from your company portal.

Select training courses from your branded store

Run reports to view training gaps, completions, & much more

A screenshot of a training matrix spreadsheet. The spreadsheet has columns for 'Name', 'Requirements', and 'Assignments'. The rows list various training modules such as 'Administrative Software', 'Equipment Operator', 'Health & Safety Manager', and 'Supervisor'. The cells contain numerical values representing training status or completion rates.

Use the training matrix to auto assign training to employees

# Streamline your company training program and reduce the time spent on administration work.

For a low, one time set up fee, On-Track Safety will create your company portal complete with your branding and colors. The portal can also be used as your company's HR and training hub.
